English, Hindi

About Me

I believe that there is always a room for improvements regardless of one's level of expertise. These improvements can only be brought by trying new things and making mistakes while doing it. Learning from mistakes and having a positive attitude is the key to growth. I am also a technology believer and I believe that a better place for everyone can be achieved with advancements in tech.

Professional Experience

SleekSky | Software Development Engineer

08/2022 – CURRENT

- I worked with NestJS, React, Express, Azure, Keycloak and tools around them while at SleekSky.
- I am responsible for building robust backend and frontend using react, node, nest.js and technologies around it.
- While at Sleeksky, I worked on a CMS, adding payment feature and a json visual form editor; and on a University-Hospital Student placement management application.

FlockAlong | Web Developer

12/2020 – 08/2022

- I worked with Gatsby, Nodejs, Netlify Functions, C#, Auth0, Google Maps, Algolia, Cypress while at FlockAlong.
- I was responsible for developing Gatsby based Front-End which served as a platform for customers to create, join and manage trips.
- Developed and deployed Back-End on Azure to facilitate the front-end. Implemented Algolia search engine and automated data updating to Algolia servers

KhaoBao | Operations Manager

12/2020 – 08/2022

- I was responsible for development of Android Apps - Customer Side and Delivery Guy app.
- In parallel I was handling day to day operations including signing new restaurants, improving customer experience and launching new services.
- Completed 40k successful orders over a period of more than 14 months.

Education

2014 – 2016	**Lovely Professional University** Btech (ECE) - Dropped Out
